---

**QUESTAR EXPLORATION AND PRODUCTION COMPANY ("Questar")** by and through their undersigned counsel, herewith file its Motion to File Objections Late, pursuant to Rule R641-105-200.

In support of its motion, Questar states and alleges as follows:

1. This matter was originally scheduled for the June 24, 2009, Board hearing.
2. Respondent timely filed with the Board an Entry of Appearance, Objection and Motion to Continue in this matter. The basis for respondents request for the continuance was that it had not been provided adequate time to review the matter and prepare a response.

3. By Stipulation to Continuance of Hearing dated June 22, 2009, Newfield agreed to continue the hearing to July 29, 2009.

4. The materials included with the Request were very detailed and Questar had to perform various internal reviews and studies to determine the impact of the Request on its interests.

5. As a result, Questar has just now completed its review of the Request and has submitted to the Board herewith its Objections.

6. When good cause appears, the Board may permit objections to be filed after the deadline provided for in Utah Admin. Code Rule 641-105-200.

DATED this 21st day of July, 2009.
